LINEA PRO RUGGED

Consumer Grade Device to Enterprise-ready

Successful businesses know that every interaction with a customer is a chance to create an extraordinary experience, one that builds loyalty and keeps the customer returning. The Linea Pro Rugged transforms the iPod touch to an enterprise-ready device that empowers your employees to help their customers with an untethered workflow.

HIGH-PERFORMANCE SCANNER

Linea Pro Rugged utilizes a high-performance optical imager capable of reading 1D, 2D, and PDF417 barcodes with speed and accuracy under any lighting condition. It also provides a fast and accurate reading of bar codes with best-in-class range and extraordinary motion tolerance, even on hard-to-read codes and those displayed on mobile phone screens.

OPTIONAL HF RFID

The optional RFID feature supports HF RFID, Apple VAS, and Google Smart Tap. This makes the Linea Pro Rugged ideal for access control operations where credentials are verified using barcode scanning or using contactless cards, wristbands or mobile wallets.

COMPACT AND COMFORTABLE

The Linea Pro Rugged for iPod is ultra-compact and comfortable to hold and carry throughout your shift. An optional customizable case with hand-strap is also available.

BUILT FOR RUGGED CONDITIONS

This device is a durable, form-fitted solution that has an IP65 rating, protecting against dust and water. Drop tested to MIL-STD-810G standards.

COMPREHENSIVE SOFTWARE

This device is compatible with a range of software platforms and includes an SDK to integrate into existing platforms without difficulty. Our suite of software tools helps you get the most out of your device, from data population to printing. The Linea Pro Rugged for iPod touch simplifies the software integration process.

24-HOUR WORKFLOWS

Easy to change hot-swappable 2400mAH battery keeps your business powered around the clock. Utilize our spare batteries and battery charging stations to ensure a fresh battery is always at the ready.
