ABOUT ELEMENT

Element specialises in technology systems that help deliver outstanding patient service at the point of care. Our mission is to help medical caregivers deliver better patient outcomes.

We understand that healthcare professionals have their own set of unique technology requirements:

- **Mobility** - you need to manage workflows at the point of care
- **High quality calibration** - for accurate diagnosis using on-screen images
- **Infection control** - keeping patients and staff safe
- **Integration** - bringing together data from multiple sources
- **Easy to use** - by all staff, all shift long
- **Tough** - to withstand the knocks and spills of a healthcare setting
- **Continuous performance** - you can't afford downtime

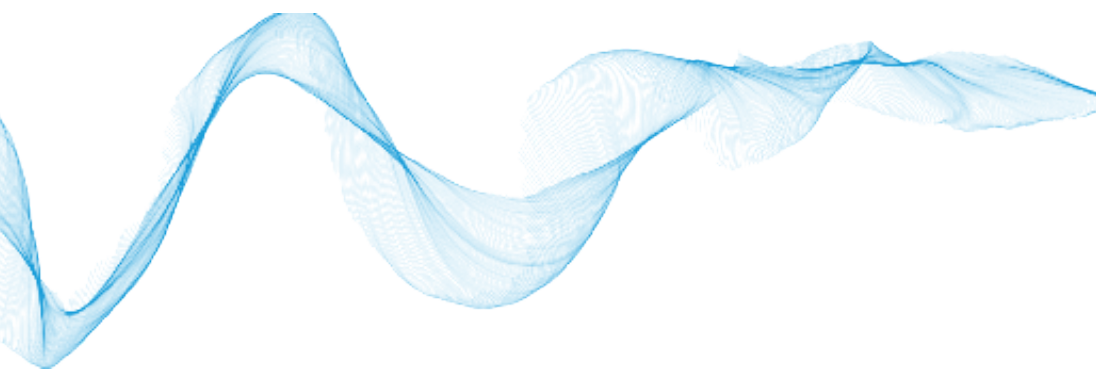

Element offers a range of panel PCs, monitors, tablets, keyboards and mice specifically designed to meet the demands of a healthcare setting. Our products offer the following medical-ready features:

- Antibacterial plastics and coatings to reduce infection spread
- DICOM calibration for diagnostic level image clarity
- Hot swap batteries - no downtime for charging
- Side loading batteries - easy to access by all staff
- IEC 60601 medical grade safety certification - allows you to safely integrate other medical devices, such as blood pressure monitors, to seamlessly extend the patient records system
- Cleanable - can be washed and disinfected
- Toughened case with hand straps and shoulder straps to make tablets easier to use

So with Element technology for healthcare, you can be sure you'll be managing patient workflows productively, safely and with the highest level of care.

The Element range is available exclusively through Sektor distribution in Australia, New Zealand, Malaysia and Thailand.

ELEMENT - HELPING YOU TAKE SERVICE TO THE POINT OF CARE

MEDICAL GRADE PANEL PC

ELEMENT K959 MEDICAL GRADE 22" PANEL PC

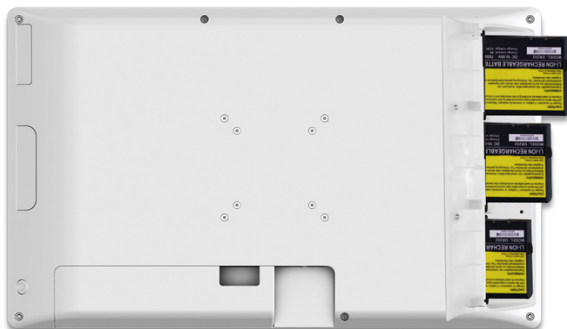

The **Element K959** is an elegant and slim-design all-in-one Medical Grade Panel PC that is well-suited for a thin or thick client for medical applications, including work stations on wheels, surgical rooms, operating rooms and bedside infotainment terminal usage.

Its unique antimicrobial material means that users can operate in confidence while reducing the risk of spreading infections at the bedside. Hot-swappable batteries offer great flexibility and mobility and are perfect for 24/7 use.

PRODUCT FEATURES

- 21.5" True-Flat Projective Capacitive Touch
- Intel Skylake U Processor
- Front IP65, Enclosure IPX1
- High Grade Anti-Bacterial Plastics
- Hot-swappable Batteries
- On Screen controls & LED work surface reading light
- On Screen - Quick View Battery Status
- Lightweight Design
- Medical Certificate (EN60601-1-2:2015, ANSI/AAMI EES60601-1)

ELEMENT K969-24G MEDICAL GRADE 24" PANEL PC

- 24" Full Flat Screen LCD Digital Display
- 1920 x 1080 resolution
- Brightness: 350 nits (No Touch)
- Front bezel with IP54 Ingress Protection design for easy cleaning
- HDMI, DP, DVI and Additional USB Ports

BARCODE SCANNER

ELEMENT P100-AM ANTI-MICROBIAL 2D HAND-HELD BARCODE SCANNER

With its comfortable, ergonomic design, disinfectant ready casing and unmatched scanning performance, the new Element P100-AM hand-held scanner offers Anti-microbial casing, containing Nano Silver Antibacterial Technology and a superior out-of-box experience for scan-intensive applications.

PRODUCT FEATURES

- Anti-microbial scanner, contains Nano Silver Antibacterial Technology
- The latest mainboard and image scanning technology, which can greatly improve the speed of decoding
- A solid and durable design
- Intelligent infrared and aiming auxiliary system for a comfortable and convenient scanning experience
- Plug and play interface, which can be quickly used with a variety of host devices

MOBILE TABLET

ELEMENT HE10-W+ 10" WINDOWS TABLET

The Element He10-W+ is an ideal companion for all your daily tasks, providing you laptop performance, tablet mobility, and a stunning full HD, IPS touchscreen with the power of Windows 10. The tablet is equipped with Intel's Gemini Lake N4120 processor, featured 4 cores, 4 threads and boosts up to 2.4 GHz. Utilising 9th gen UHD Graphics 600 GPU and advanced ULV technology, He10-W+ brings a smooth software experience, high quality 4K media decoding and exceptional battery life.

PRODUCT FEATURES

- 10.1 inch full HD IPS P-CAP multi touch touchscreen
- Light, full metal unibody chassis
- Ultra fast connection with dual-band Wi-fi
- Intel 9thGen UHD Graphics 600
- Large capacity battery/260 hours standby time

ELEMENT BUMP CASE FOR HE10-W+ 10" WINDOWS TABLET

PRODUCT FEATURES

- Multi-layered protective case with non slip material
- 360 degree Rotatable Handstrap
- Integrated Kick Stand
- Adjustable Shoulder Strap
- Shock and scratch-proof
- Easy access for your Element He10-W+ Tablet

MEDICAL GRADE WASHABLE KEYBOARDS AND MICE

ELEMENT ECT-104 MEDICAL GRADE WASHABLE KEYBOARD

The Element ECT104 series of medical grade washable keyboards is designed to offer frontline workers additional protection by providing an easily cleanable input device. The ECT104 can be cleaned by most hard surface disinfectant solutions and, by applying the provided USB cap, can be sink washed, sprayed or wiped down. The ECT104 series also offers super quiet short travel keys and keyboard kick legs, designed to ensure that every operator has a comfortable typing experience whilst reducing the noise impact to those around them.

PRODUCT FEATURES

- Standard 104keys full keyboard
- Complete protection against dust and liquids, IP68 (washable)
- Washing with soapy water or in dishwasher
- Plug and play USB
- Keyboard is ideal for common use environments such as hospitals, government offices, libraries, schools and more
- Can be used with medical gloves
- Resistant against most common detergents and disinfection materials
- Sterilised in seconds, no need for expensive sterilisation methods
- Silent low noise typing
- With kick legs and desktop to form a 6 degree angle with comfortable typing experience
- Nano Silver Antibacterial Technology
- Warranty: 3 years
- Available in white or black

ELEMENT ECT-105 MULTI-INTERFACE MEDICAL GRADE WASHABLE KEYBOARD WITH CLEANLOCK FUNCTION

The **Element ECT-105** series medical grade washable keyboards is designed to offer front-line workers additional protection by providing an easy to clean input device.

Our medical silicone keyboard is fully sealed to ensure easy and effective cleaning and comes with a unique Cleanlock function that allows the keyboard to be easily disabled for cleaning routines.

The ECT-105 series also comes complete with a removable Silicon cover that can be replaced when required and an industry leading Multi-Interface ensuring that the same product can be used in all aspects of the Healthcare environment.

PRODUCT FEATURES

- Standard 104 keys full keyboard with Multi-Interface (USB, BT, WiFi)
- Complete protection against dust and liquids, IP68 (washable)
